Deputy Assistant Secretary – Indian Affairs (Management)
Office of Facilities, Property and Safety Management

Division of Safety and Risk Management (DSRM)
Indian Affairs is committed to establishing a safe and healthy environment for all employees, visitors, students and general public including Tribal members by building a culture which has safety and health as an integral part of every endeavor.

To accomplish this goal, every job or project must include safety and health planning and implementation of the best possible safety and health practices. We must foresee probable hazards and develop a course of action that will eliminate or reduce hazards to an acceptable level.

To provide optimum services through competent and pro-active employees with the expertise and support necessary for program success.
DSRM Organization

IA Safety Manager
Division Chief

Administration

Supervisory Safety and Occupational Health Specialist:
Safety and Health Compliance
Major Activities

- Federal Occupational Safety and Health

Safety and Health Committees
Legal and Other Requirements

• The Occupational Safety and Health Act of 1970 requires the head of each Executive Department to:
  – Develop and support activities to reduce injuries and work related illness among employees and damage to property
  – Encourage safe work practices
  – Eliminate work hazards and risks

• 29 CFR 1960 Basic Program Elements for Federal Employees OSHA

• IA Policy:
  – Mandates responsibility of all levels of management to establish and support Safety Committees

• BIA Safety and Health Handbook – Topic 22 Safety Committees
Objectives of a Safety Committee

• Reduction of injuries and work related illnesses
• Promotion and coordination of safe work practices
• Elimination of work hazards and risks
• To stimulate the interest of all employees and to keep them informed on safety matters.
Objectives of a Safety Committee

- To make safety activities an integral part of operating policies and methods and a function of daily operations.
- To provide an opportunity for free discussion of accident problems and preventive measures. A suggestion system may be used to obtain information from workers on unsafe conditions.
- To help management evaluate safety suggestions.
Importance of Safety Committees

- Local Safety Committees are vital to success of the overall safety program. They provide information for management and employees to use to prevent injuries and eliminate hazards.
- Safety Committees provide an opportunity for open discussion of safety issues and concerns.
- Combining employee and management knowledge and experience to address safety issues
- Channeling action on safety suggestions and ideas from employees
- Improving safety attitudes and behaviors
Importance of Safety Committees

• Promoting a clearer understanding of safety issues
• Maintaining good employee and public relations
• Improving employee morale
• Stimulating new ideas and suggestions through observation, discussion, and action
How to Organize a Safety Committee

Safety Committees are an vital part of the safety organization, forming a chain of communication between employees and the various levels of management and giving program advice to appropriate management authorities.
How to Organize a Safety Committee

When a committee is formed, certain policies and procedures should be set forth in writing and should cover at least:

• Scope of committee activity
• Extent of committee authority
• Procedures
• Record Keeping
How to Organize a Safety Committee

Scope of committee activity -

• Define the purpose of the committee
• Develop a mission statement
• Define the purpose of the committee
• Provide leadership
How to Organize a Safety Committee

Extent of committee authority -

• Safety Issues
• Accident Prevention
• What role will the committee have in respect to safety policy and procedures
• Recommendations to Management
How to Organize a Safety Committee

Procedures –

• How will the agenda be developed
• How often will the committee meet
• What positions will be established
• What are the roles of the positions
How to Organize a Safety Committee

Record Keeping -

• Who will keep meeting minutes
• How will minutes be approved
• Distribution of minutes
Hold a Meeting

• Elements of an effective meeting
  – Start and end on time
  – Have a clear purpose or objective
  – Follow an agenda
  – Be as brief as possible
Sample Agenda Topics

• Announcements and Introductions
• Project Status Reports/Action Items
• New Safety Committee Opportunities
• New Safety Committee Actions
• Training for Safety Committee Members
• Meeting Summary
Agenda

• Distribute 1-2 weeks before the meeting

• Ensures committee stays on task

• Record and keep all agendas in file
Announcements and Introductions

- Roll call (important to document)
- Introduce new members and guests
- Review agenda
Project Status /Action Items

• Review current safety projects and status of individual action items
• Update continuing projects
• Close out completed projects
• Adjourn
