

Standards, Assessments, and Accountability System Negotiated Rulemaking Committee

Topics for meeting #3

Make time and resources to look at definitions of standards, assessments, accountability [in addition to work on draft regulations].

1. Products from each subcommittee: proposed regulations from each group for tentative consensus on each section (standards, assessments, accountability and waivers & technical assistance).
2. Standards –look at examples of standards and common core from southwest states that were supported by tribes; from WA: from SD
3. Assessments – possible presentation on PARC, Smarter balance NWEA, (note it is not peer reviewed for accountability)
4. Accountability— N size chart, Deb, ins/outs state accountability systems ; graduation rate and requirements , and 5 year cohort add as a read ahead current CFR on graduation requirements
