

The Bureau of Indian Education (BIE) is pleased to announce the launch of its new public internet website at <http://www.bie.edu>. We hope that you will take the opportunity to explore the new website in the coming weeks. We believe this new website offers cleaner presentation and easier navigation and therefore represents a significant improvement.

The website project also includes the creation of a new BIE intranet at <http://inside.bie.edu>. The purpose of the intranet is to have an internal, collaborative site on the Education network for BIE employees to share documents, form user groups, and in the near future, utilize SharePoint tools.

We stress that both of the new sites are not yet fixed in their final form. They are both still under development and we anticipate that many enhancements will be made to them in the coming months.

Thank you,

Maureen Lesky, Ph.D.
Special Assistant
Deputy Director of School Operations
