

HCPs, both of which are available for public review.

Proposed Project

The applicant requests a 15-year ITP to take skinks via the conversion of approximately 12.52 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of an expansion of the existing Pine Ridge Recycling & Disposal Facility on 56.8-acrs, Parcel #s 18–23–27–0000–00–002 and 06–23–27–4292–06–080 in Section 18, Township 23 South, Range 27 East, Orange County, Florida. The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 25.04 ac of skink-occupied habitat within the Lake Livingston Conservation Bank or another Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any phase of the project.

Our Preliminary Determination

The Service has made a preliminary determination that reasonably foreseeable effects of the applicant's proposed project, including the construction and expansion of the existing facility, would have a minor effect on the skink and the human environment, and no extraordinary circumstances in 43 CFR 46.215 apply. Reasonably foreseeable effects encompass effects of implementation of the action including effects of the action in addition to other past, present, and reasonably foreseeable future effects.

Therefore, we have preliminarily determined that the proposed ESA section 10(a)(1)(B) permit would be a low-effect ITP that may qualify for an application of a categorical exclusion (516 DM 8.5(C)(2)), pursuant to NEPA, the DOI's NEPA regulations, and the DOI DM. A low-effect ITP is one that would result in (1) negligible or minor effects on species covered in the HCP; (2) no significant effect on the human environment; and (3) reasonably foreseeable effects that would not result in significant effects to the human environment.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If

met, the Service will issue ITP number PER14094861 to Waste Management (Pine Ridge Recycling & Disposal Facility).

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. If you submit a comment at <https://www.regulations.gov>, your entire comment, including any personal identifying information, will be posted on the website. If you submit a hardcopy comment that includes personal identifying information, such as your address, phone number, or email address, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. Moreover, all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32), NEPA (42 U.S.C. 4321 *et seq.*), as amended, and the DOI's implementing regulations (43 CFR part 46).

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period on this collection of information was published on January 13, 2023 (88 FR 2430). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
